

## **A Message from the Student Development Center**

Parents and Students:

The Student Development Center (SDC) at the Indiana School for the Deaf is responsible for a variety of after-school activities for students, Preschool through High School. The SDC does not coordinate athletic activities sponsored by the Athletic Department, under the supervision of the Athletic Director.

The SDC provides daily and weekly activities and special events which are open to all students – residential and day. The SDC provides a monthly newsletter to all parents, which includes all the after-school activities, except for sporting practices and games.

The SDC welcomes all students to participate in these activities and provides instructions in the monthly newsletter for parents to contact their child's Assistant Dean for overnight visits or participation in an activity or event.

If anyone has suggestions for activities, mini-courses, intramural sports or special events, please contact one of the following persons.

George M. Stailey  
Student Development Educator  
Preschool and Elementary
